

## **Post Event Report: FOOD & FAITH: A DIALOGUE BETWEEN MUSLIMS AND JEWS. Monday, January 30, 2017**

**Assalamalaikum CMC community,**

**More, more, more was what the students of College of Charleston asked us. The Central Mosque of Charleston represented by its Imam, shura and many members of the CMC community with their families participated at the recently concluded Food & Faith event held at the College of Charleston. The Muslim values of the CMC community had a very positive influence on the educationalists, faith leaders and students at this well attended Dawah event. The participants were well impressed by the positive and encouraging remarks of friends from the Jewish and Muslim community. A participant remarked that "These events provide a good opportunity for a frank free discussion and to know each other better". In conclusion we like to thank our Imam, the Dawah Committee and CMC members for their participation in this event, may Allah (swt) reward us all for our efforts. The event featured in the local news section of abcnews4, the link is below**
